

Report of Inauguration of the activities of Nature Club 2017-2018

“ Everyone must be possessive about the nature. Nature is the property which belongs to all and everyone thinks that someone else will take care of it and in the process no one takes care of it. We will be able to protect the nature only when we become possessive about it .” shri. Sujeetkumar Dongre, Dy. Programme co-ordinator, Centre for Environmental Education, Goa- Region said while addressing the students and staff of MES College of Arts and Commerce, Zuaringar-Goa at the inauguration of the activities of Nature Club on 11/08/2017. He further said – whatever wealth that is created by us becomes an asset and whatever that we destroy in the process becomes a liability for our future generation. The balance between the two would promote sustainable development.

Principal Dr R. B. Patil in his presidential remark requested the students to be innovative and provide out of the box solution for sustainable development.

Vice Principal Dr Rekha Gaonkar welcomed the gathering . Ms Shruti B. Nayak , Chairperson , Nature Club introduced the chief guest while Assistant Prof. Tejas Mangaonkar proposed the vote of thanks. Ms Kiran Jadhav compered the programme.
