

MES's VASANT JOSHI COLLEGE OF ARTS AND COMMERCE, ZUARINAGAR- GOA

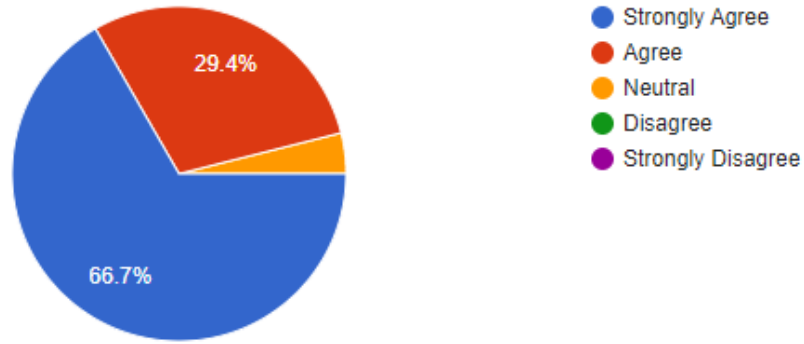

ALLUMNI FEEDBACK ABOUT SYLLABUS

2022-2023

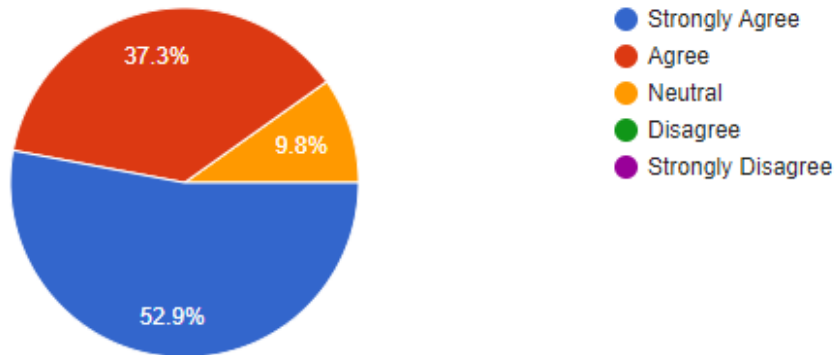

Sr. No.	Indicators	Strongly Agree	Agree	Neutral	Disagree	Strongly Disagree
1.	I feel proud to have been a student of MES College of Arts & Commerce	66.7%	29.4%	3.9%		
2.	My college learning was useful in my career	52.9%	37.3%	9.8%		
3.	I feel that my education at MES has inculcated strong moral and ethical values in me	51%	41.2%	5.9%	1.9%	
4.	The key concepts were adequately addressed in each course/paper	43.1%	47.1%	7.8%	2%	
5.	There were adequate learning resources (e.g.books/journals, audio-visual materials, e-resources, etc.) provided for program delivery and to actively engage students.	51%	39.2%	7.8%	2%	
6.	The curriculum has immensely contributed to my knowledge, skills and overall personal development	45.1%	49%	3.9%	2%	
7.	The curriculum is designed to effectively meet the standards of 21 st century job market	43.1%	31.4%	23.5%	2%	
8.	Any specific suggestions for improvement in syllabus	<p>As a fresher I had difficulty in finding job as they asked for experience despite of me being a fresher. For jobs they don't see what syllabus was covered. They only ask for experience!</p> <p>Everything is good at MES college the environment, education professors only washroom needs to be maintained properly.</p> <p>Whatever that's added in the syllabus must be made practical related which can be applied in our day to day life.</p> <p>The syllabus adequate covers all the necessary areas.</p> <p>Not really, Its just that I really wanna go back in time and enjoy the college age again.</p> <p>Not really, all my mentors were really helpful at my time.</p> <p>Showing more video relevant to subject will be better to understand</p> <p>Development of new skills other than syllabus like teaching for any entrance exams</p> <p>Should focus on more practical lessons than theories</p> <p>Keep on updating</p> <p>Proper notes should be submitted on time</p> <p>Advance subject in IT</p> <p>Uiux should be in syllabus</p> <p>Everything in the syllabus needs an upgrade. The labs are useless for the current industry environment (Sorry about the wordings here* : the hardware and software provided is basically trash, I don't know what the management considers as computer application but as far as I can tell, theoretical knowledge will not help anyone. This is from experience, and I'll tell you I learned majority of my skills without any prior engagement from any</p>				

		<p>source.). The syllabus also need thorough revamping. In the three years I was in BCA, the only thing I did was self study as the majority of the syllabus was something I learned back in my 11th STD. Whoever is sitting as the one deciding the syllabus needs to step the hell down and get someone who actually knows what is being used by the industry right now. Also, your choices for applications to be used is trash. It is an embarrassment to tell a company who needs a graphic designer proficient in photoshop and coral draw that he/she does not know about those software but a software known as GIMP (Paint with more tools). When I told this during one of my interviews, I was seriously ashamed and left the place.</p> <p>No, it's best college. Everything is just perfect... Modernize certain part of syllabus so as to be useful in the future It's just perfect More of practical papers All good Include more financial aspects in the graduation and practical explanation of how financial industry works Hope the latest syllabus covers a few case studies in major subjects for students to get information about actual practical aspects of business and services sector. There should be opportunity for internship for students & more of implementing practical learning. Having enough teachers for all subjects that are in syllabus More practical training to be imparted to students as they can be ready for the job. Like feeding bank statements in tally , writing vouchers in voucher book , analyzing balance sheets and profit and loss accounts of companies available online eg TCS , Reliance etc. understanding business concepts like letter heads , drafting business apt emails to client and replying aptly to client on whatsapp So that students know what to do on the first day of their job. A few points which I came across during fresher hiring. More practicals should be conducted Practical approach in academics is necessary Maybe practicality could be implemented throughout the course for example (internships) Include topics in the Syllabus that are useful for daily life The suggestion is that students should always thought the latest technological aspects which are upgrading in the market even though it is not included in the syllabus</p>
--	--	--

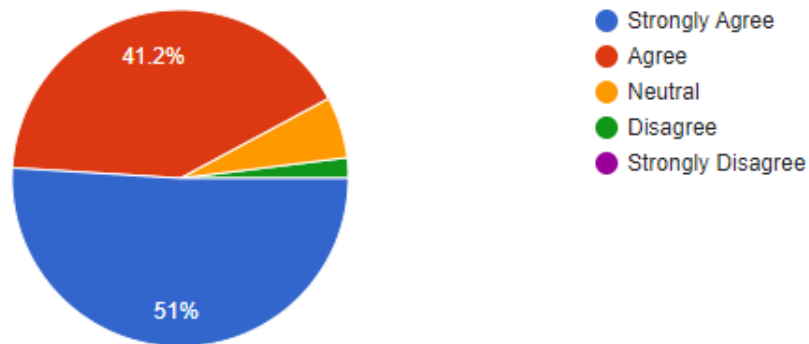

I feel proud to have been a student of MES College of Arts & Commerce

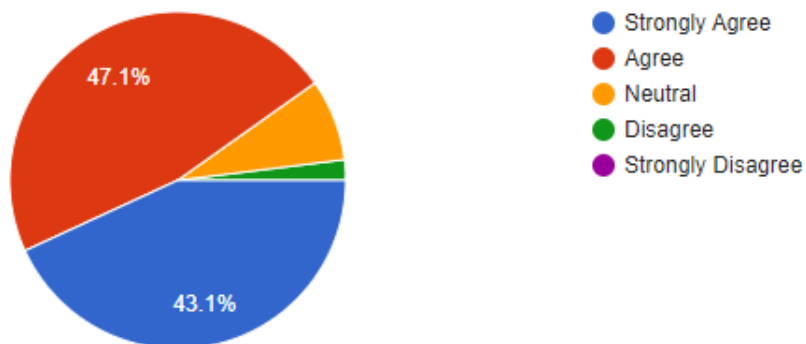

My college learning was useful in my career

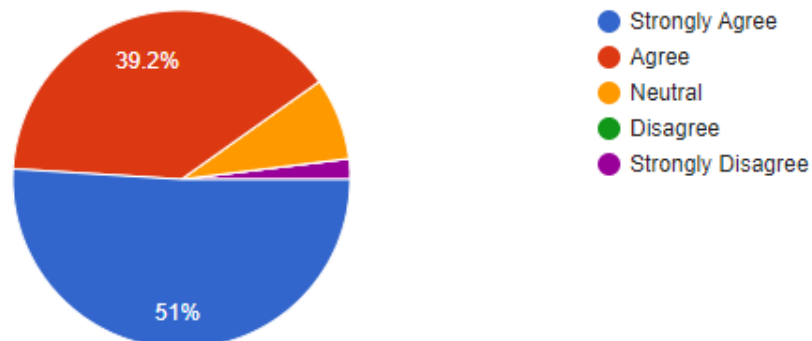

I feel that my education at MES has inculcated strong moral and ethical values in me

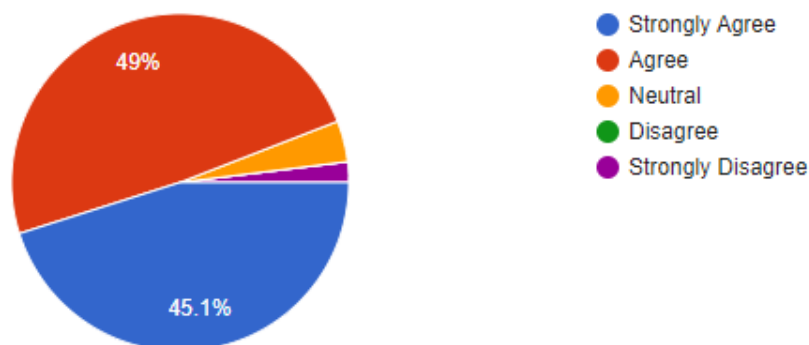

The key concepts were adequately addressed in each course/paper

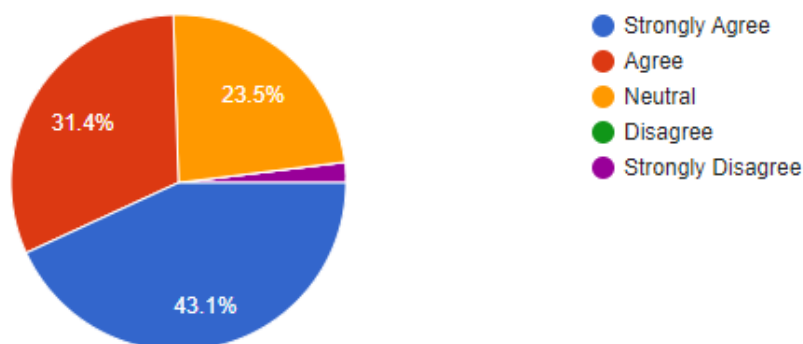

There were adequate learning resources (e.g.books/journals, audio-visual materials, e-resources, etc.) provided for program delivery and to actively engage students.

The curriculum has immensely contributed to my knowledge, skills and overall personal development

The curriculum is designed to effectively meet the standards of 21st century job market

Analysis of the feedback highlighted the following points.

- A total of 51 alumni responded to the feedback form. Majority of the alumni (66.7%) responded feeling proud to have been a student of MES College of Arts & Commerce.
- Many of the alumni (52.9%) agreed that college learning was useful in their career.
- Many (51%) others agreed that their education at MES was responsible for inculcating strong moral and ethical values in them.
- They (43.1%) admitted that key concepts were adequately addressed in each course/paper.
- Majority (51%) were of the opinion that adequate learning resources (e.g.books/journals,audio-visual materials, e-resources, etc.) were provided for program delivery and to actively engage students.
