Suggestions:

- Should provide notes in advance to students which will help in understanding better.
- Department should focus more on practical knowledge or application based learning rather than theory.
- Excel needs to be taught for better knowledge and will also help in the career.
- Smart board for all the class
- Hons for political science.
- Install AC in every classroom
- The Syllabus is very compartmentalised. All topics are seperated without link to each other. The Questions asked are not application type. The Syllabus focuses more on cramming of books than personal development
- More books in library

Dr.Manasvi M. Kamat
